Answering Multi-Part Narrative Questions

Many questions require you to address multiple elements in a single text box. Number your responses to correspond with multi-element questions using the same numbers in the question. This will help you organize your responses to ensure they are complete and help us to review and score your responses.

Attachments

Questions requiring attachments to receive points state, "You must upload the [Specific Attachment Name] attachment to the 4A. Attachments Screen." Only upload documents responsive to the questions posed—including other material slows down the review process, which ultimately slows down the funding process. Include a cover page with the attachment name.

- Attachments must match the questions they are associated with—if we do not award points for evidence you upload and associate with the wrong question, this is not a valid reason for you to appeal HUD's funding determination.
- We must be able to read the date and time on attachments requiring system-generated dates and times, (e.g., a screenshot displaying the time and date of the public posting using your desktop calendar; screenshot of a webpage that indicates date and time).

OHS coordinates the planning & allocation of the balance of state ESG funds with CR for non-entitlement cities. 2. OHS, lead HMIS agency, participates in evaluating & reporting of ESG program recipients. OHS prepares & submits a monthly HMIS data collection report card which includes ESG program recipients & is provided to ESG program sub-recipients. ESG funded agencies participate in CoC meetings & are voting members of CoC governing board which determines priorities for the CoC & ESG funds & takes part in ESG funding decisions. 3. CoC staff provide PITC data to cities that includes number of persons counted in their jurisdiction broken down by gender, age, race/ethnicity, & subpopulations. HIC data is broken down by component—ES, TH, PSH, RRH—by jurisdiction & provided to each city. Staff also help jurisdictions identify gaps & strategize about how ESG & other funds could fill the gaps. ESG recipients & CoC analyze the HMIS data for each CoC & ESG funded project to ensure CoC is meeting housing needs as determined by an annual gaps analysis. 4. OHS assists ESG recipients with preparation of the Consolidated Plans (Con Plan) for FY 2023 & the Annual Action Plans. CoC provided PIT, HIC, HMIS, & CES data to Con Plan jurisdictions & descriptions regarding nature & extent of homelessness, homeless agencies & services, homeless prevention, & recidivism. CoC assures data is addressed in Con Plans by identifying homeless needs & priorities, services to homeless, & providing strategies as required by Con Plan. CoC provides HMIS data for Annual Action Plans & CAPERs. OHS coordinated with ESG recipients to ensure that Con Plans include PITC results for the Homeless Needs Assessment, strengths & gaps of the homeless service delivery system, & the strategies that are applied to address gaps.

2.	the formal partnerships your CoC has with the entities checked in Question 2C-4.

(limit 2,500 characters)

Formal partnerships have resulted in the CoC collaborating with school districts and homeless youth programs in the CoC. The CoC Governance Charter requires that a representative from a local school district sit on the CoC's Board. Local Education Agency (LEA) representatives sit on the CoC Governing Board. The CoC governing board oversees the Homeless Youth Taskforce (Taskforce). The Taskforce was created to investigate the needs of homeless youth in the CoC and to find solutions to those needs. Policies and procedures have resulted in Taskforce and LEAs having established protections to keep homeless students from discrimination based on their housing status. The purpose of the Taskforce is to ensure that youth-related runaway and homelessness issues are appropriately addressed through a “comprehensive countywide network” of service delivery for this hard to reach population. The CoC, through the Taskforce, raises awareness on the issue of child and youth homelessness throughout San Bernardino County and advocate through the CoC Governing Board to improve related services; Educate the public about the unique needs and challenge faced by youth living in homelessness; Act as a clearinghouse for homeless youth service providers to exchange ideas and resources in order to better meet the needs of homeless children within the County; Promote programs and services for homeless children and youth so that they may have access to free and appropriate public education while removing or minimizing any barriers that they may face; Increase homeless youth collaborative and coordination efforts through engagement, sharing of information, and reducing and/or eliminating any overlap and duplication of services for homeless youth.

	Special NOFO Section VII.B.3.d.	

Describe in the field below written policies and procedures your CoC adopted to inform individuals and families who become homeless of their eligibility for educational services

(limit 2,500 characters)

In the San Bernardino County CoC, HUD funded agencies that serve families have written agreements in place and educational supports to serve children ages 0-5. Such agreements include childcare for children birth to 3 years, Head Start, and Memorandums of Understanding with early childhood providers. CoC funded agencies have adopted policies and procedures to inform individuals and families who become homeless of their eligibility for educational services. Homeless liaisons representing the San Bernardino County Superintendent of Schools (SBCSS) sit on the CoC’s governing board and votes on funding decisions and CoC policies and procedures. Representatives from the San Bernardino City Unified School District (SBCUSD) also participate in CoC monthly meetings. SBCUSD, the largest school district in the CoC, operates the Access To Learning for All Students (ATLAS) program. The ATLAS program is committed to removing barriers and providing supports and services for SBCUSD students in foster care and homeless situations. Local school districts and homeless service providers inform homeless guardians and students that enrollment in school is possible even if the student is unable to provide documents typically required for enrollment. Transportation to and from school is provided and will be, according to current Board Policy, to school of origin, if appropriate. Students will have access to full participation in all school related activities and programs for which he/she is eligible and automatic qualification in the school’s nutrition program. Individuals and Families are informed of their eligibility for educational services at intake interviews with clients and information is disseminated and posted throughout the CoC in shelters, schools, and daycare facilities.

## 4A. Attachments Screen For All Application Questions

Please read the following guidance to help you successfully upload attachments and get maximum points:

- |    |   |
|----|---|
| 1. | You must include a Document Description for each attachment you upload; if you do not, the Submission Summary screen will display a red X indicating the submission is incomplete.  |
| 2. | You must upload an attachment for each document listed where 'Required?' is 'Yes'   |
| 3. | We prefer that you use PDF files, though other file types are supported—please only use zip files if necessary. Converting electronic files to PDF, rather than printing documents and scanning them, often produces higher quality images and reduces file size. Many systems allow you to create PDF files as a Print Option. If you are unfamiliar with this process, you should consult your IT Support or search for information on Google or YouTube. |
| 4. | Attachments must match the questions they are associated with.  |
| 5. | Only upload documents responsive to the questions posed—including other material slows down the review process, which ultimately slows down the funding process.  |
| 6. | If you cannot read the attachment, it is likely we cannot read it either.<br>- We must be able to read the date and time on attachments requiring system-generated dates and times, (e.g., a screenshot displaying the time and date of the public posting using your desktop calendar; screenshot of a webpage that indicates date and time).<br>- We must be able to read everything you want us to consider in any attachment.                           |
| 7. | Open attachments once uploaded to ensure they are the correct attachment for the required Document Type.  |
