

# HMIS Data Quality Report Card

Sample Reporting Period 10/1/2024 to 10/31/2025

## PROGRAM INFORMATION

Agency Name: **City of Ontario**

### Data Quality and Completeness

Complete and accurate records are required to ensure data quality. Required Data that is missing, incomplete or not collected has a negative impact on the quality of data. The higher the percentage of missing or erroneous data, the less useful the data becomes.

**Total Clients Enrolled:** 115

Fields with values over 5% errors.  Fields with values 5% or less.  Fields with no errors.

Error rate includes data not collected, missing information, the client doesn't know, and client refused options. A program should have less than a 5% error rate to ensure accurate data. Missing intake and exit data need to be reviewed by staff on a regular basis. Any additional Data received from the client after enrollment should be entered into the Homeless Management Information System (HMIS) within a timely manner.

**HUD Policy:** A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

Sample Reporting Period 10/1/2024 to 10/31/2025

## PROGRAM INFORMATION

Agency Name: **City of Ontario**

| Type             | 0 days | 1-3 days | 4-6 days | 7-10 days | 11+ days | Average |
|------------------|--------|----------|----------|-----------|----------|---------|
| Entry Timeliness | 16     | 11       | 1        | 2         | 74       | 20      |
| Exit Timeliness  | 8      | 15       | 3        | 1         | 46       | 16      |

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5-day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

**HUD Policy:** Data entry should be current within 2 business days of intake, exit, and service provision.
