

HMIS Data Quality Report Card

Sample Reporting Period 10/1/2024 to 11/30/2025

PROGRAM INFORMATION

Agency Name: **Family Assistance Program**

Data Quality and Completeness

Complete and accurate records are required to ensure data quality. Required Data that is missing, incomplete or not collected has a negative impact on the quality of data. The higher the percentage of missing or erroneous data, the less useful the data becomes.

Total Clients Served: 409

Income and Sources (4.02) at Start	2	0.49%
Income and Sources (4.02) at Annual Assessment	4	28.57%
Income and Sources (4.02) at Exit	0	0.00%

Fields with values over 5% errors.

Fields with values 5% or less.

Fields with no errors.

Error rate includes data not collected, missing information, client does not know, and client refused options. A program should have less than a 5% error rate to ensure accurate data. Missing intake and exit data need to be reviewed by staff on a regular basis. Any additional Data received from the client after enrollment should be entered into the Homeless Management Information System (HMIS) within a timely manner.

HUD Policy: A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

Sample Reporting Period 10/1/2024 to 11/30/2025

PROGRAM INFORMATION

Agency Name: **Family Assistance Program**

Type	0 days	1-3 days	4-6 days	7-10 days	11+ days	Average
Entry Timeliness	59	25	24	29	104	24
Exit Timeliness	192	9	12	6	36	11

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5-day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

HUD Policy: Data entry should be current within 2 business days of intake, exit, and service provision.
