Discussion/ Action Item	
3	<p>Authorize the Office of Homeless Services (OHS) to apply for the Youth Homeless Demonstration Program (YHDP) Notice of Funding Opportunity (NOFO) application in June 2024. - Dr. Pat Leslie, Urban Initiatives</p> <p style="text-align: right;">9:20 – 9:35 am Pg. 13</p>
4	<p>Accept the 2024 CoC Homeless Count and Survey Final Report for CA-609 San Bernardino City and County CoC and authorize the submission of the data to the U.S. Department of Urban Development (HUD) through the Homeless Data Exchange. - Dr. Joe Colletti, Urban Initiatives</p> <p style="text-align: right;">9:35 – 9:55 am Pg. 14</p>
5	<p>Approve the tentative date of November 7, 2024, to conduct the 2024 Homeless Summit. - Jessica Alexander, Chair</p> <p style="text-align: right;">9:55 – 10:15 am</p>
Council Roundtable	
	<p>Open to comments by the Council</p> <p style="text-align: right;">10:15 – 10:30 am</p>
Adjournment	
Next ICH Meeting	<p>The next regularly scheduled Interagency Council on Homelessness meeting is scheduled for:</p> <p style="text-align: center;">Wednesday, June 26, 2024 9:00 – 11:00 a.m. SBC Superintendent of Schools 760 Brier Drive, San Bernardino, CA 92408</p>

Mission Statement

The mission of the San Bernardino County Homeless Partnership is to provide a system of care that is inclusive, well planned, coordinated, and evaluated and is accessible to all who are homeless and those at-risk of becoming homeless.

THE INTERAGENCY COUNCIL ON HOMELESSNESS MEETINGS ARE ACCESSIBLE TO PERSONS WITH DISABILITIES. IF ASSISTIVE LISTENING DEVICES OR OTHER AUXILIARY AIDS OR SERVICES ARE NEEDED IN ORDER TO PARTICIPATE IN THE PUBLIC MEETING, REQUESTS SHOULD BE MADE THROUGH THE OFFICE OF HOMELESS SERVICES AT LEAST THREE (3) BUSINESS DAYS PRIOR TO THE PARTNERSHIP MEETING. THE OFFICE OF HOMELESS SERVICES TELEPHONE NUMBER IS (909) 501-0610 AND THE OFFICE IS LOCATED AT 560 E. HOSPITALITY LANE, SUITE 200, SAN BERNARDINO, CA 92408-0044. <https://sbchp.sbcounty.gov/> AGENDA AND SUPPORTING DOCUMENTATION CAN BE OBTAINED AT 560 E. HOSPITALITY LANE, SUITE 200, SAN BERNARDINO, CA 92408-0044.

**Minutes for San Bernardino County Homeless Partnership
Interagency Council on Homelessness (ICH) Meeting**
April 24, 2024, from 9:00 a.m. – 11:00 a.m.

Minutes Recorded and Transcribed by Claudia Doyle, Office of Homeless Services

TOPIC	PRESENTER	ACTION/OUTCOME
Call to Order	Jessica Alexander, Chair	The meeting was called to order at 9:04 a.m.
ICH Board Member Introductions	Jessica Alexander, Chair	Marcus Dillard took ICH Member roll call. Members of the public are not introduced. There were 40 members of the public who joined the ICH meeting in person, via Zoom and/or telephoned in.
ICH Board Members Present		<ul style="list-style-type: none"> • The following ICH members or their alternates were present for the meeting: Joe Baca Jr, Erika Lewis-Huntley, Sandra Ibarra, Paul Fournier, Juan Preciado, Carrie Harmon, Diane Rundles, Dr. Georgina Yoshioka, Maria Razo, Don Smith, Jessica Alexander, Astrid Johnson, Ruben Mendoza. • Members arriving late: Erika Lewis-Huntley (9:09 am), Astrid Johnson (9:05 am), Ruben Mendoza (9) • Absent: Acquanetta Warren, Curtis Yakimow, Paul Anthony Courtney, Paul Durham, Sharon Green, Sue Walker
PUBLIC COMMENTS	PRESENTER	ACTION/OUTCOME
		<p>The Chair recognized Public Comments from: No public comments were made. The Chair closed Public Comment.</p>
CONSENT	PRESENTER	ACTION/OUTCOME
Approve Minutes of the February 28, 2024, ICH Meeting	Jessica Alexander, Chair	<p>The Chair opened the consent calendar portion of the agenda.</p> <p>Supervisor Baca made a motion to approve the consent calendar and was seconded by Sandra Ibarra.</p> <p>The Chair opened the item for comment by the ICH Board members. No Discussion ensued.</p> <p>Vote was taken:</p> <ul style="list-style-type: none"> • 0 members were opposed. • Absent: Acquanetta Warren, Curtis Yakimow, Paul Anthony Courtney, Paul Durham, Sharon Green, Sue Walker, Erika Lewis Huntley <p>The motion was approved.</p>

INFORMATION SHARING	PRESENTER	ACTION/OUTCOME
Office of Homeless Services (OHS) Update	Marcus Dillard, Office of Homeless Services	<p>The Chair recognized Marcus Dillard to give an OHS update.</p> <p>Marcus Dillard called Stephanie Navarro to report on HHAP.</p> <p>Stephanie Navarro – Provided an update on HHAP 3 and HHAP 4 Grant Awards for the CoC.</p> <ul style="list-style-type: none"> • HHAP 3 – issued 12 contracts on behalf of the CoC. <ul style="list-style-type: none"> ○ One contract was the allocation for the youth advisory board. ○ 11 contracts were as a result of the HHAP 3 RFA released last year. ○ One contract pending going to the Board, OHS is working with the provider on a few outstanding items. • HHAP 4 – Released an RFA late last year and received 40 submissions. <ul style="list-style-type: none"> ○ OHS has completed a threshold review to see if applications were responsive. ○ OHS communicated with each Regional Steering Committee’s (RSC) Co-Chairs requesting volunteers to serve as evaluators. ○ Each region’s evaluator will be reviewing their own regions submissions. ○ Once regions have completed the review process, they will come together to make recommendations to the RSC and the ICH Board and then issue contracts. <p>Discussion ensued:</p> <ul style="list-style-type: none"> • The Chair asked where OHS was in the threshold review and if there are any submissions that have not met threshold review? <ul style="list-style-type: none"> ○ Response: Most applicants have met threshold; we’ve had a few questions on some. We are mainly looking to see that they have submitted everything we asked for. We are not reviewing the applications (scopes of work, b, that’s for the evaluators to do. <p>Being no other question, the Chair closed OHS Updates.</p>
Presentation on SB 4: Yes, In God's Backyard	Ruben Mendoza, Uplift San Bernardino	<p>The Chair recognized Ruben Mendoza to give a brief presentation on the <i>Yes, In God's Backyard</i> conference.</p> <p>Ruben Mendoza – The conference was held at the Water of Life Community Church in April.</p> <ul style="list-style-type: none"> • Faith-based leaders and nonprofits were able to meet and here directly from their peers who have been working in Housing Development for a while. • National Core was in attendance to provide technical support. They are one of the largest nonprofit housing developers. • During the conference we had an opportunity to take a closer look at Senate Bill 4 the California Affordable Housing on Faith Land Act and discuss what the CoC would like to engage in. <ul style="list-style-type: none"> ○ Senate Bill 4 is legislation that went into effect this year as of the first of January and signed by the Governor. ○ It provides a streamlined process for religious organizations and nonprofit colleges to

		<ul style="list-style-type: none"> ○ develop affordable multi-family housing, regardless of local zoning restrictions. ○ Allowing organizations to build 100% of affordable multi-family homes on lands that they own by overriding local zoning restrictions and streamline the permitting process. ○ SB4 does not allow faith based and non-profit colleges to acquire new land, land used with SB4 needs to have been owned by the non-profit prior to January 1st of this year. ○ Provisions on attached agenda packet documentation. <p>Discussion ensued:</p> <ul style="list-style-type: none"> ● Maria Razo – stated that the Housing Authority was able to get two projects approved through the Housing Development Fund. The first Water of Life Community Church, where we were able to leverage private community funding to make it happen. And then most recently Operation Grace’s youth project received a funding resolution that’s faith-based initiative. Faith based institutions have been critical to the response of homeless needs and I see there’s a lot of opportunity in our county. ● Don Smith – thanked Ruben for sharing the information, said that this is a great opportunity on addressing the affordable housing challenges. There are over 4,000 available, full acres of land on faith-based property and over 7,000 acres of land for non-profit colleges. One caution that was brought up during the meeting was to ensure that our faith-based organizations are looking to do this and are well prepared and well-armed with the tools and information they need to do this properly and particularly to avoid being taken advantage of by developers. We need to ensure that faith based can develop projects that are mission driven and help us achieve our affordable housing goals. We need to provide them with the tools and information they need to move forward with this. Their projects do not have to be 100-unit projects, but could be 12-unit projects for veterans, people coming out of prisons or DV clients, etc. ● Paul Fournier – Asked who in the room felt well versed in the subject? <ul style="list-style-type: none"> ○ Carrie Harmon was mentioned as a possible expert and that she could refer questions to others who were in the conference. ● Sandra Ibarra – asked if clarification on the AC acronym. Also asked who would be paying the prevailing wage for the construction workers? <ul style="list-style-type: none"> ○ Carrie Harmon responded that if fast tracking and exemptions are used, under the law they would be subject to prevailing wage. Faith based institutions that are developing land outside of the provisions, might be exempt from prevailing wage if they have enough private money in the project. Ultimately the church and the construction company will end up bearing those cost if they have enough private money in the project. <p>Being no other questions, the Chair closed the presentation item.</p>
DISCUSSION / ACTION ITEM	PRESENTER	ACTION/OUTCOME
Approve the Continuum of Care (CoC) Funding Reallocation Policy and Procedures	Marcus Dillard, Office of Homeless Services	The Chair recognized Marcus Dillard, Office of Homeless Services to present Item #4. Marcus Dillard – Item #4 is to discuss a reallocation policy to be adopted by the CoC.

		<ul style="list-style-type: none"> • The CoC receives a score each year through the CoC consolidated application, which determines the order in which the CoC is funded and its competitiveness for renewals and new funding. • Part of that score is based on the CoC's use of the reallocation policy and in doing research and meeting with other CoC and our HUD representative to try and ensure that we as a county are in adherence to the standards. • The policy was not brought forth with the thought of having someone reallocate, but if that ever does come up, we have a policy on file that we are governed by that makes it fair for everyone if their funds have to be reallocated. • The policy has been reviewed by County Counsel for the CoC and for the County. <p>Don Smith made a motion to approve item #4 and was seconded by Supervisor Baca.</p> <p>The Chair opened the item for comment by the ICH Board members. No discussion ensued:</p> <p>Vote was taken:</p> <ul style="list-style-type: none"> • 0 members were opposed. • Absent: Acquanetta Warren, Curtis Yakimow, Paul Anthony Courtney, Paul Durham, Sharon Green, and Sue Walker <p>The motion was approved</p>
COUNCIL ROUNDTABLE	PRESENTER	
		<p>The Chair opened the floor for comment to the ICH Board members.</p> <p>Discussion ensued:</p> <ul style="list-style-type: none"> • Supervisor Baca; Board of Supervisors approved a 28-unit transitional housing for youth. Some challenges of Senate Bill 4 with nonprofits that we have encountered are that some nonprofits are not putting the program together and what the cost will be. These projects take investment and commitment on all parts, and I appreciate Carrie and Dr. G being well versed on the topic and coming with a non-profit who wants to expand. Our office recommended items that they needed to do in order to be prepared for a project like this. Our office has also had conversations with San Bernardino Valley College who are interested in putting affordable housing for students. They are putting out an RFP for developers. Yesterday the Board of Supervisors accepted 3.7 million dollars to invest for more housing. We're also looking at a 4th affordable housing project unit in Bloomington. We're also looking to have an honest conversation with cities and see how we can help to facilitate success. The Housing Authority and the Board of Supervisors authorized a 5 million dollars for the Waterman Gardens project. We want to see those projects succeed, that's why its important that we work with the cities and make sure the cities are willing to do their part and play a big role in the projects. • Marcus Dillard – Regarding the audit that took place at the Office of Homeless Services, there will be

		<p>action that occurs because of the audit. Basically, that OHS does not have accurate data or tracking for programs. OHS is taking that seriously and is being diligent about ensuring that we as a county are good data providers. OHS is meeting with the state and getting feedback and we anticipate that there will be an increased demand on the county to ensure that the data is accurate and that we are doing what needs to be done strategically with the funding that's being allocated to our respective areas. For that reason, we want to make sure that as agencies understand that there are certain things that are required of us as we request funding. Funding requires that data get submitted to the state, so we need agencies to document and provide information needed.</p> <ul style="list-style-type: none">• Ruben Mendoza – On Tuesday April 30th, Ruben will be at Waterman Gardens presenting six checks to those who applied to their RFPs. Agencies are building affordable, recuperative care, transitional and permanent housing. On another note, I just came back from Vienna, and I am amazed by all that they are doing for housing. The US has a very archaic system when it comes to homeless services and affordable housing production. In West Coast cities, there is only 5% affordable housing, while the rest is market rate. In Vienna, its 43% affordable housing and the rest is market rate, but the two are able to coexist with one another. A 700 square foot apartment here is currently at \$1600 a month, while in Vienna the same apartment is \$500. Another interesting thing is that they have something called limited profit housing, where in the US a developer makes a profit at 50%, but in Vienna it is capped at 3.5%. Vienna has public investment loans that are generated through a 1% tax base, and give out 1% interest construction loans, and provide several subsidies to their residents. During my one-week visit, I only saw 2 unhoused individuals. The city has 2 million residents and almost 1 million units and counting. We need to institute a systems level change that does not continue to perpetuate the economic levels of poverty through the voucher system. At the end of the day the voucher is for the landlord so that the tenant can afford a market rate unit. Production is the key with more housing made available.• Don Smith – Thanked Ruben for sharing his experience and information. He stated that what it is, is a commitment to recognition that housing is a human right and that governments are responsible for making sure that everybody has a housing option, but in the US its all market driven. People ask, “why are people on the streets?” well because they don't have places to live. Until we change that, nothing is going to change and impact. The National Low Income Housing Coalition just released their Annual Gap Report Shortage of Affordable Housing. Across the US a shortage of 7.3 million rental homes that are affordable and available to extremely low-income households. In California the 2024 gap is 24 units for every 100 extremely low-income renters. Our metropolitan region is tied for 7th in the nation for having the most severe shortage of affordable and available rental homes at 21 per every 100 extremely low-income renters. In our communities 81% of extremely low-income and 52% of low-income renters are severely housing cost burdened, meaning they pay more than 50% of their income towards rent. In San Bernardino County the average is around 63% of income going to rent. If you're on Social Security, you do not have an option to rent. Unless you can get a coveted subsidized golden ticket, but those are few and far between. The number of older adults and disabled who are unhoused or housing insecure are skyrocketing. In this county only 6% of the rental stock is HUD assisted. The Housing Partnership also just released their affordable housing needs report for 2024, which shows the state is only funding 12% of what is needed to meet the goals of
--	--	--

our affordable housing. And that's with all of the significant investment that's come through. We are still only hitting 12% of the need. Rent in California has increased 37% since 2000 while income has only increased 7%. That is why people can not afford places to live, they would need to make 2.8 times the state minimum wage to afford the average rent in California, and in San Bernardino County it is 2.1 times the minimum state wage to afford the average rent. The California Housing Partnership also just released their affordable homes at risk report which shows San Bernardino County is 6th amongst the most populous counties in the state. Correction on the subsidized affordable housing we're 7th with 924 units at risk to lose their affordability. For the naturally occurring affordable housing, we're losing over 11,000 units in San Bernardino County through people buying up and we have gentrification so things that are naturally affordable right now those are all being lost as they get bought and moved to market rate. In the end we can have all the services we want, but if we do not have places for people to live that they can naturally afford, because government will not be able to subsidize market rate units for everyone who needs it. We need to find a way to create housing that people can afford with low incomes. The majority of extremely low-income renters are over 34% working people, and those on benefit income, 49% of them are seniors or disabled, they are amongst the extremely low-income renters. These are huge challenges, that we need to tackle and determine how we are going to come up with policies that are about creating housing that people can afford, not figuring out how we can subsidize the continuing skyrocketing market rates. Some good news the City of San Bernardino received 4.5 million in emergency resolution funding. The City of Rancho Cucamonga was recognized for pro-housing from the state, one of only two cities recognized, the other was Needles. The designation goes to communities that are establishing policies to help do affordable housing across all income levels. That designation comes with resources and funding to help continue creating avenues for more affordable housing to be built. City of Ontario is releasing an RFP seeking an operator for their interim motel-based access center, emergency interim housing site. Our partner Pacific Lifeline in Upland is partnering with Heart to Seve, started building the first 3D printed, permitted home in Southern California. Family Assistance Program just opened a new runaway youth shelter in San Bernardino a few weeks ago. The Supreme Court just heard arguments on Johnson V Grant, ruling that making people move off of public lands or from sleeping on public lands when there is nowhere else to go is cruel and unusual punishment. The Supreme Court is hearing a challenge to the ruling, which the State of California and several cities are part of the challenge to the law. And finally, thank you to the HOPE Team and InnROADS for the presentation they gave last month at the West Valley RSC.

- Astrid Johnson – Thanked the HOPE Team for going to the Morongo Basin and meeting with Wayne Hamilton, they toured the East Valley homeless sites in hope of having a more accurate homeless count and accurate maps. We have a project Homekey in Twentynine Palms. We partnered with the city and we still have two vacancies. The reason we have two vacancies is because the VA voucher system is not being funded or lacking funding, I don't know if that's true or not, but I'm hoping maybe somebody can clarify that. The East Valley is extremely impacted by short-term rentals, especially in the Joshua Tree area, to the point that we lost over 3,000 homes. There's very little affordable housing left. When homes are flipped, and large mortgages are taken out, when they are flipped back to long-term rentals now they want 3 times the rent and people can not afford that. We have a

		<p>lot of people who can not afford or find affordable rentals. We hope that the BOS can address all of this and be cognizant that although there is a lot of money because of the Transient Occupancy Tax, it has affected our area and we've lost the population since these are people that are just vacationing, and the permanent people are gone. This impacts the businesses and schools. Lastly regarding the 211 regional HUBs, we are waiting to hear how the HUBs will be supported in July? I hope to hear about a solution in an upcoming agenda and that by July we've addressed the issue of funding.</p> <ul style="list-style-type: none"> • Jessica Alexander – I am aware that we have not yet released the voting on our new governance charter. That is because there are some last final discussions that are happening between legal and our consultants. However, that gives us more time to read over the governance charter and to make sure we're familiar with it. So hopefully we'll have a new timeline that comes out no later than the end of the month. These are discussions that I have been a part of with our vice-chair and also Pastor Green which is the Countywide HPN Chair, and everyone is in agreement with us doing our research to make sure we get this right.
Adjournment		Being no further business, the meeting was adjourned at 9:47 a.m.
Next Meeting		<p>The next ICH meeting will be held as follows:</p> <p style="text-align: center;"><u>ICH Special Meeting</u> <u>Wednesday, May 22, 2024</u> <u>9:00 am – 11:00 am</u></p>

Update on Housing and Homelessness Incentive Program (HHIP)

Date May 22, 2024

Presenter Carrie Harmon, Director – Community Development and Housing
 Scott Neeri, Administrative Analyst III – on behalf of the Office of Homeless Services

Announcements The table below lists the announcements for today’s meeting.

Announcements
<p>Background: The Housing and Homelessness Incentive Program (HHIP) is a statewide voluntary incentive program that enables health plans to earn one-time incentive funds for improving health outcomes and access to whole person care services by addressing homelessness and housing insecurity as social drivers of health and health disparities. Funds flow from the State of California Department of Health Care Services (DHCS) to Medi-Cal Managed Care Providers (MCPs) and are intended to reduce and prevent homelessness and ensure MCPs develop the necessary capacity and partnerships in collaboration with their county and CoC counterparts to connect their members to needed housing services.</p> <p>On February 6, 2024, San Bernardino County (County) approved an agreement with IEHP to deploy \$44.83 million in HHIP funds to support local projects that align with IEHP’s state approved HHIP Investment Plan. This funding included up to \$11,500,000 in HHIP funds designated for the CoC. The balance of funding will be administered by the Community Development and Housing Department (CDH) to advance County Sponsored projects.</p> <p>On March 25, 2024, the Interagency Council on Homelessness (ICH) authorized the Office of Homeless Services (OHS), as the Administrative Entity, to undertake a competitive procurement process for HHIP.</p> <p>Updates: The Office of Homeless Services (OHS) is currently drafting a Request for Application (RFA) in alignment with the IEHP HHIP Investment Plan. Per the Investment Plan, the CoC HHIP funds are to be invested across six investment activities: CoC Support, CoC Collaboration and Partnerships, Disparities and Equity Services Support, Street Medicine Support, Community Supports, and Permanent Supportive Housing. See <i>Attachment A - Housing and Homelessness Incentive Program (HHIP) Inland Empire Health Plan (IEHP) Investment Plan</i> for descriptions and funding amounts for each investment activity.</p> <p>The RFA will be issued on or before May 31, 2024. OHS is recommending the development of a CoC-wide committee that will evaluate and score responses to the RFA. A representative from IEHP will be included as one of the members on the</p>

committee. Successful proposals will be presented to the ICH for review and approval.

CDH is taking the lead with investing the County's allocation of HHIP funds and has several projects that are in development. These include:

- The Expansion of the Kern Street Facility that, combined with funding from other sources, will ultimately accommodate 20 additional beds that will be designed to serve the San Bernardino County Sheriff's Department Forensic Populations.
- A partnership with Arrowhead Regional Medical Center for the development and launch of Street Medicine team that will provide medical care and outreach to homeless individuals where they are located.
- The expansion of the Pacific Village Campus, which will include the creation of 28 units of Permanent Supportive Housing (PSH).

ATTACHMENT A

**Housing and Homelessness Incentive Program (HHIP)
Inland Empire Health Plan (IEHP) Investment Plan**

Investment Activity	Investment Activity Description	Funding Amount
CoC Support	Supplement existing Homeless Housing, Assistance and Prevention (HHAP) financial plans and strengthen housing-related infrastructure and workforce (i.e., administrative costs, employee retention, and certifications)	\$1,000,000
CoC Collaboration and Partnerships	Support the expansion of contractual arrangements that include data sharing agreements with housing-related service Providers who can provide interim housing, rental assistance, supportive housing, outreach services, and/or prevention/diversion services	\$2,000,000
Disparities and Equity Services Support	<ul style="list-style-type: none"> • \$500k - Support San Bernardino County's CoCs in addressing disparities and equity in outreach, coordination, and permanent supportive housing solutions. • \$500k - Address disparities and equity by supporting entities who provide services to the LBGTQ+ and HIV population. 	\$1,000,000
Street Medicine Support	Support the CoC to integrate and develop street medicine teams.	\$1,000,000
Community Supports	<ul style="list-style-type: none"> • \$500k - Expand the network of Community Support Providers as well as augment housing related care services to include increased case management services in clinics, behavioral health staffing, respite beds, and substance abuse and/or prevention programs. • \$1M - Incentivize IEHP's Community Support Providers to increase the number of housing-related and recuperative care Community Support (CS) services for IEHP Members. Funding to also incentivize CS Providers to be able to electronically receive, follow-up and close referrals. 	\$1,500,000
Permanent Supportive Housing	\$5M over 3 years to support the CoC's development/infrastructure for capital improvement projects that are in progress or nearing completion to support and expand the capacity in San Bernardino County to sustainably house IEHP Members. Funding will be used to secure/reserve beds/space for IEHP Members.	\$5,000,000
Total		\$11,500,000

Youth Homelessness Demonstration Program (YHDP) grant application

Date May 22, 2024

Presenter Dr. Pat Leslie

Recommendation Authorize the OHS to submit the YHDP application to HUD through Grants.gov on behalf of the CoC.

Announcements

In preparation of the U.S. Department of Housing and Urban Development’s (HUD) release of the Youth Homeless Demonstration Program (YHDP) grant application the Youth Advisory Board is asking for approval for the Office of Homeless Services (OHS) to submit the YHDP grant application to the U.S. Department of HUD on Behalf of the San Bernardino County Continuum of Care (CoC) (CA-609: City and County of San Bernardino).

The target population to be served through this funding is youth experiencing homelessness, including unaccompanied and pregnant or parenting youth, where no member of the household is older than 24 years of age.

The primary objectives of the Demonstration Program include:

- Building national momentum
- Promote equity in the delivery and outcomes of homeless assistance,
- Highlight the importance of youth leadership,
- Evaluating the coordinated community approach,
- Expanding capacity,
- Evaluating performance measures, and
- Establishing a framework for federal program and technical assistance collaboration

The YAB and OHS have been working with Urban Initiatives to assist with the development of a youth survey to enhance the YHDP application together with the San Bernardino County Superintendent of School and the Transitional Age Youth program as part of the Homeless Youth Taskforce and the Youth Action Board.

The application process will be highly competitive. The Homeless Youth Taskforce and the Youth Action Board has been preparing and meeting regularly to support the submission of an application by the CoC to be considered as one of the communities to participate in this demonstration program.

Findings for Each Jurisdiction With Five or More Unsheltered Adults 25

APPENDIX B:

Unsheltered Count Survey 84

EXECUTIVE SUMMARY

There were 4,255 adults and children who were counted as homeless during the 2024 Point-In-Time Count and Survey. The previous Point-In-Time homeless count and survey was completed in 2023 during which 4,195 persons were counted. A comparison of the last two counts reveals that :

- 42 more persons were counted in 2024, which represents an increase of 1.4%;
- 79 more persons were counted as unsheltered in 2024 when compared to the unsheltered count in 2023, which represents an increase of 2.6%; and
- 19 less persons were counted as sheltered in 2024 when compared to the sheltered count in 2023, which represents a decrease of 1.6%.

Table 1. Comparison of 2023 and 2024 Homeless Counts

	Sheltered	Unsheltered	Total
2023 Homeless Count	1,219	2,976	4,195
2024 Homeless Count	1,200	3,055	4,255
Difference:	-19 (1.6%)	+79 (2.6%)	+60 (1.4%)

Regarding sheltered homelessness, the U.S. Department of Housing and Urban Development states that:

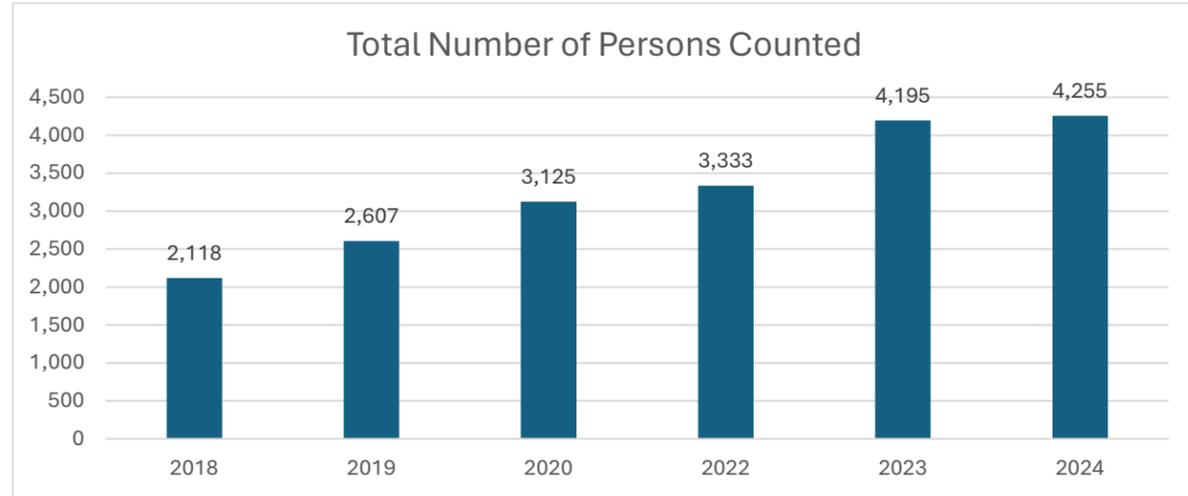

- Continuums of Care must count all individuals or families who meet the criteria in paragraph (1)(ii) of the homeless definition in 24 CFR 578.3. This includes individuals and families “living in a supervised publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs for low-income individuals)” on the night designated for the count. This includes individuals residing in Safe Haven projects.

Regarding unsheltered homelessness, the U.S. Department of Housing and Urban Development states that:

- Continuums of Care must count all individuals or families who meet the criteria in paragraph (1)(i) of the homeless definition in 24 CFR 578.3. This includes individuals and families “with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport, or camping ground” on the night designated for the count. Rapid Re-Housing (RRH) assisted households who are still unsheltered on the night of the count (e.g., staying in an encampment and being assisted by an RRH project to obtain housing) must be included as part of the unsheltered count.

The following chart shows that the number of persons counted as unsheltered and sheltered in 2018 was 2,118 and 4,255 in 2024, which represents an increase of 2,137 persons or 100%

Chart 1. Persons Counted 2018-2024

The following table provides a breakdown of the total number of sheltered and unsheltered persons counted in 2024 by jurisdiction.

Table 3 notes that approximately three-fourths (75.5%) or 3,200 of the 4,237 homeless adults and children were counted within the seven cities of Barstow, Colton, Fontana, Ontario, Redlands, San Bernardino, and Victorville. These seven cities accounted for 2,187 or nearly three-fourths (71.6%) of the total unsheltered population of 3,055, and 762 or 90.0% of the 844 persons counted in shelters, and 251 or 74.2% of those in transitional housing.

BACKGROUND INFORMATION

The U.S. Department of Housing and Urban Development (HUD), as part of its requirements for local Continuums of Care (CoCs) to continue to receive continuum of care funding for homeless persons, requires CoCs to conduct “one-day Point-In-Time” sheltered and unsheltered homeless counts during the last 10 days of January. The CA-609 San Bernardino City and County CoC is one of approximately 400 jurisdictions nationwide that submit an annual application to HUD for continuum of care funding.

HUD requires CoCs to conduct a sheltered count every year and an unsheltered count every other year. The San Bernardino City and County CoC conducts an annual unsheltered count, as do more than half of California’s 44 CoCs.

When was the count conducted?

The sheltered count included residents of shelters and transitional housing programs throughout the county who slept in these facilities during the night of January 24 through the early morning of January 25. The unsheltered homeless count was conducted on Thursday, January 25, 2024, and began at 6 a.m.

HUD allows counting in hard-to-reach and remote places to continue up to seven days after the count if persons are asked if they were homeless on the day of the count and a unique identifier is used to prevent duplication. A limited amount of counting occurred during the seven days following the count in a few hard-to-reach and remote places.

Who was counted?

Per HUD’s instructions, a person was considered homeless, and thus counted, only when they fell within the HUD-based definition by residing in one of the places described below:

- In places not meant for human habitation, such as cars, parks, sidewalks, and abandoned buildings;
- In an emergency shelter; and
- In transitional housing for homeless persons.

Each person who was counted was also asked a series of survey questions that ensured that all HUD-required subpopulation data was collected that included adults with:

- HIV/AIDS;
- Serious mental illnesses; and
- Substance use disorders.

Subpopulations also included:

- Families;
- Chronically homeless families and individuals;
- Veterans; and
- Youth age 18–24.

Asking adult survivors of domestic violence survey questions is optional according to HUD.

Several questions to gather locally desired information were also asked and include:

- Did you become homeless for the first time during the past 12 months?
- Has a doctor or other medical professional ever told you that you have a chronic health condition that is life-threatening, such as heart, lung, liver, kidney, or cancerous disease?
- Have you been incarcerated during the last 12 months?
- Have you ever been in foster care?
- How much is your monthly income?
- In which city/community did you first become homeless?
- In which state were you born?
- Where did you sleep last night?

Who was not counted?

Per HUD’s instructions, a person was not considered homeless if the person resided in one of the following places:

- Medical facilities, such as hospitals, psychiatric facilities, and nursing homes;
- Jails, prisons, or juvenile detention facilities;
- Chemical dependency facilities, such as substance use treatment facilities and detox centers; and
- Foster care homes or foster care group homes.

Also, per HUD’s instructions, children identified by McKinney-Vento Homeless Coordinators at schools as homeless should not be counted. Schoolchildren living in an emergency shelter or transitional housing program will be counted as part of the sheltered count and counted as part of the unsheltered count if unsheltered.

Lastly, HUD does not consider persons who are “doubled up,” or persons who are “near homelessness” to be homeless but considers them to be at risk of becoming homeless. Thus, such persons were not included in the homeless count.

San Bernardino County, like many other counties, has a substantial number of households that are at risk of becoming homeless. The Census Bureau noted that 13.5% or approximately 91,000 households (consisting of approximately 300,000 residents) in the county were living at or below the poverty level as reported in the 2022 American Community Survey.

Many of these persons can become homeless because of social structural issues such as increases in rent, loss of jobs, and rising healthcare costs. In addition, personal experiences such as domestic violence, physical disabilities, mental illness, and substance use can cause members of a low-income household or an entire household to become homeless. Often, one or more of these causes factor into a household’s homelessness experience.

Who carried out the count?

The homeless count and subpopulation survey was a joint effort of the San Bernardino County Homeless Partnership, the San Bernardino County Office of Homeless Services, and the Institute for Urban Initiatives. San Bernardino County had approximately 550 community volunteers serve as counters. As noted in the Acknowledgements section of this report, there were 24 cities and towns that contributed staff time and office space for the training and deployment of counters. There were 24 law enforcement agencies that provided their time, knowledge, and expertise regarding locations of homeless persons. Also, there were several non-profit agencies, faith-based organizations, homeless providers, and County departments that helped with the planning process, including the San Bernardino County Innovation and Technology Department (ITD), which created maps to guide counters.

The San Bernardino County Homeless Partnership (SBCHP) was formed to provide a more focused approach to issues of homelessness within San Bernardino County. Its primary purposes are to develop a countywide public and private partnership and to coordinate services and resources to reduce homelessness in San Bernardino County. The partnership consists of community and faith-based organizations, educational institutions, non-profit organizations, private industry, and federal, state, and local governments. SBCHP was developed to promote a strong collaboration between agencies to direct the planning, development, and implementation of the county’s strategy to prevent and reduce homelessness. The partnership provides leadership in creating a comprehensive countywide network of service delivery to homeless and near-homeless households by facilitating better communication, planning, coordination, and cooperation among all entities that provide services and/or resources to relieve homelessness.

The San Bernardino County Office of Homeless Services (OHS) serves as a “clearinghouse” of homeless issues for all County departments. Any homeless issues encountered by County staff can be referred to this office for resolution. OHS staff plays a vital role in SBCHP as the administrative support unit to the organization. OHS ensures that SBCHP’s vision, mission, and goals are carried into effect.

The Hub for Urban Initiatives consists of several community- and faith-based institutes that respond to the economic, housing, and social needs of neighborhoods, cities, and counties from local community, regional, national, international, and faith-based perspectives. Urban Initiatives has completed over 100 assessments for local government and private organizations throughout Southern California that have focused on affordable housing, business development and education for micro-businesses, fair housing, homelessness, migrant farming, and street vending.

METHODOLOGY

Unsheltered Homeless Count and Survey

To conduct the count, Esri's ArcGIS software platform was used. The 2024 Homeless Point-In-Time Count was a configuration of Survey 123 for ArcGIS and Operations Dashboard for ArcGIS that was used by OHS in partnership with ITD to conduct the 2024 homeless count and survey.

Homeless Point-In-Time Count efforts included the following applications:

- Homeless count survey, which included more than 20 questions to meet HUD requirements concerning the collection of data for HUD-designated subpopulations and to meet local requests for additional information about the homeless population;
- Homeless count dashboard, which was used to monitor results of the Point-In-Time Count in real time; and
- Homeless count results application that provided for instant viewing of data and tables that detailed Point-In-Time Count results.

A digital survey form was designed to simplify the surveyor's experience; only relevant questions were displayed based on the answers input, eliminating the need for surveyors to devote time and effort to determining which questions to ask and resulting in a streamlined surveying experience.

Additional logic was built into the form to perform calculations behind the scenes. For example, the form combined the answers from a subset of questions to determine whether the respondent met HUD's definition of chronically homeless and calculated the result as the survey was completed. Extensive testing was conducted to ensure the various combinations of factors were all successfully calculated to a correct result. These calculations allowed for real-time monitoring of such metrics as the count was taking place using an Operations Dashboard, ultimately eliminating the need for the calculations after the count was completed.

An added benefit of using digital surveys was the capture of location information. When a survey was conducted, the global positioning system (GPS) location of the surveyor's mobile device was captured, providing the geographic location of where the survey took place, and opening up opportunities for mapping and analyses. (For safety and privacy reasons, location information was not captured for surveys of sheltered homeless persons.) Upon completion of the count, the data were examined and scrubbed to remove any invalid records, such as practice surveys submitted before the official start of the count. Steps were also taken to ensure that duplicate records – instances where the same individual was surveyed more than once in the same location – were identified and removed.

Closer monitoring of undercounted areas

As previously noted, the Esri Survey 123 app provided the ability for a homeless count dashboard, which was used to monitor results of the Point-In-Time Count in real time. This provided instant viewing of data points on the dashboard in the command center during the time of the count. Each data point represented a household counted.

During the count, if data points did not appear in areas where homeless persons were known to live, volunteers were sent to the area to count, and persons counted were included in the total count if they had not been previously counted.

After the count, if data points did not appear in areas where homeless persons were known to live, professional outreach workers were sent to those areas the next day and persons were included in the total count if they had not been previously counted. HUD allows for next day counting based upon two conditions: 1) any homeless persons encountered must be asked if they were homeless on the day of the count, and 2) a unique identifier must be created for that person.

A unique identifier was created for all persons counted on the day of the count and the day after the count. If the same unique identifier appeared twice, it was assumed that it was the same person; also, a person was only included once in the total count if the person stated "yes" when asked "if they were homeless on the day of the count," which was Thursday, January 25.

Analyzing the subpopulation data

Only adults and unaccompanied teenage children who are counted are surveyed; accompanied children in families are not surveyed. Of the 3,018 adults and unaccompanied children under 18 counted, 1,654 or 55% were surveyed and 1,364 or 45% were observed. Counters were instructed to record "no" in the digital survey form for question 4, "Are you able to interview this person" and to give their best guess-estimate for questions 4–6, which asked for gender, age, and race/ethnicity, if they believed there was a safety issue, if a person was sleeping, or if a person refused to be interviewed.

Sheltered Homeless Count

HUD encourages the use of Homeless Management Information System (HMIS) data to generate sheltered counts and subpopulation data for programs with 100% of beds participating in HMIS. Therefore, HMIS was used to gather the total number of occupied beds and the number of persons for each subpopulation.

A data collection instrument was used to collect the total number of occupied beds and the number of persons for each subpopulation for non-participating HMIS programs and for HMIS participating agencies whose HMIS data is incomplete and/or incorrect. The same questions used to collect subpopulation data through HMIS were used for the data collection instrument.

Unsheltered Homelessness

Of the 4,237 persons counted as homeless in 2024, 3,055 or nearly three-fourths (72.1%) were unsheltered, which is defined by HUD as:

“An individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: (i) An individual or family with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings.”

HUD also requires that the total number of unsheltered and sheltered adults be broken down by various subpopulations, including age, gender, race, and ethnicity. Of the 3,055 unsheltered persons counted, 3,012 were adults, 6 were unaccompanied children under age 18, and 17 were accompanied children under age 18 in families.

HUD requires that the following demographic information be included in the Point-In-Time Count chart submission to HUD: gender, race/ethnicity, and age. Thus, the following questions were included in the homeless count survey:

What is your gender?

The following table provides a breakdown by gender for adults, unaccompanied youth under age 18, and accompanied children under age 18 in families. HUD requires gender to consist of woman (girl if child), man (boy if child), culturally specific identity, transgender, non-binary, questioning, different identity, and more than one gender.

More than two-thirds (68.5%) of adults were men and more than one-fourth (30.6%) of adults were women. Two-thirds (66.7%) of unaccompanied youth under age 18 were a boy and one-third (33.3%) were a girl. More than half (59.5%) of accompanied children under age 18 in families were boys and 40.5% were girls.

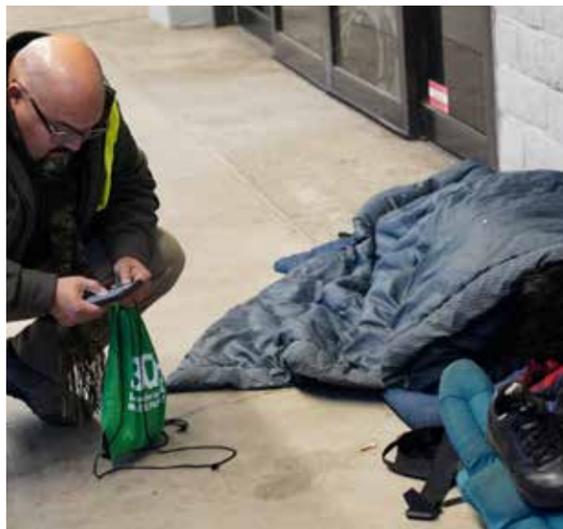

Table 6. Breakdown by Gender

Gender	Adults		Unaccompanied Youth Under Age 18		Accompanied Children Under Age 18 in Families	
	Number	Percent	Number	Percent	Number	Percent
Woman (Girl if child)	922	30.6	2	33.3	15	40.5

Unknown	49	1.6	1	16.7	5	13.5
Total:	3,012	100	6	100	37	100

How old are you?

Table 8 offers a breakdown by age for adults according to HUD's required age groups.

Half (50.0%) of adults were age 44 or younger: 3.1% were age 18–24; 19.7% were age 25–34; and 27.2% were age 35–44.

Half (50.0%) of adults were age 45 or older: 22.0% were age 45–54; 21.4% were age 55–64; and 6.6% were age 65+.

Table 8. Breakdown by Age for adults

Adults	Number	Percent
Age 18–24	93	3.1
Age 25–34	593	19.7
Age 35–44	819	27.2
Age 45–54	662	22.0
Age 55–64	644	21.4
Age 65+	201	6.6
Total:	3,012	100

Other Subpopulations

Table 9 provides a breakdown of other subpopulations for adults.

Table 9. Breakdown by Subpopulations

Other Survey Questions

Other questions were included in the survey that were not required by HUD. There were 1,648 adults who responded to these survey questions.

Table 10. Other Survey Questions (n=1,1648)

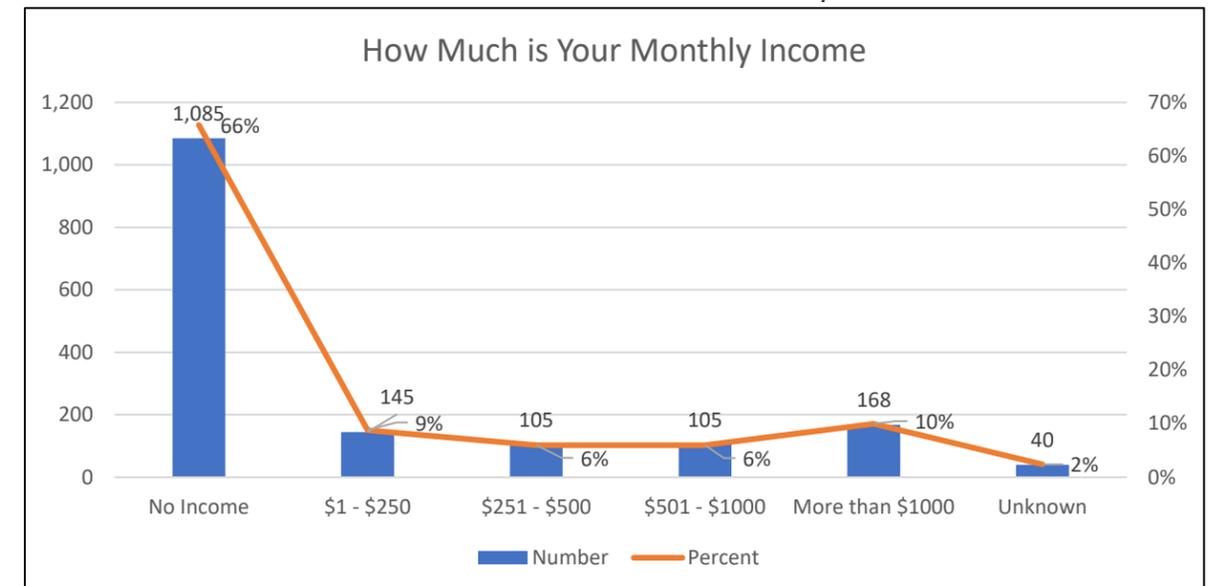

Demographic Information	Number	Percent
Did you become homeless for the first time during the past 12 months?	592	35.9
Has a doctor or other medical professional ever told you that you have a chronic health condition that is life-threatening such as heart, lung, liver, kidney, or cancerous disease?	237	14.4
Have you ever been in foster care?	190	11.5
Have you been incarcerated during the last 12 months?	353	21.4

Other questions in the survey included:

How much is your monthly income?

As noted in the following chart, more than three-fourths (81%) of survey respondents had either no monthly income (66%) or monthly income of \$500 or less (15%).

Chart 2. Monthly Income

In what city did you first become homeless?

Table 11 notes the responses from the 1,648 adults who were interviewed. For example, 489 persons or 29.6% stated they first became homeless in the City of San Bernardino.

SHELTERED HOMELESSNESS

Of the 4,255 persons counted in 2024, 1,200 persons or 28.2% were sheltered. Among the 1,200 sheltered persons, 844 were counted in shelters or received non-congregate shelter through a motel voucher and 356 were counted in transitional housing programs. HUD states that persons living in shelters and transitional housing programs (including safe haven programs) on the night of the count must be included in the sheltered homeless count.

As required by HUD, the sheltered count included the number of persons and households sleeping in emergency shelters (including seasonal shelters) and transitional housing programs that were listed on the Housing Inventory Chart (HIC). In addition, any persons staying in hotels or motels paid for by a social service agency were included in the sheltered count per HUD's instructions if the voucher program was listed on the Homeless Inventory Count (HIC).

HUD also requires that the total number of sheltered persons be broken down by pre-designated subpopulations. The total number of sheltered persons by the pre-designated subpopulations for 2023 are listed in the table below.

Prior to the homeless count, the HIC was specifically undated to include any new programs or exclude any programs no longer operational by OHS staff and Key Person Task Force members. A few changes were made to the HIC prior to the count.

HUD encourages the use of HMIS data to generate sheltered counts and subpopulation data for programs with 100% of beds participating in HMIS. Therefore, HMIS was used to gather the total number of occupied beds and the number of persons for each subpopulation. A data collection instrument was used to collect the total number of occupied beds and the number of persons for each subpopulation for non-participating HMIS programs. The same questions used to collect subpopulation data through HMIS were used for the data collection instrument. Thus, sheltered count data for all sheltered programs was gathered either through a data collection instrument or HMIS.

The following table provides a breakdown by age of the sheltered population of 1,200 adults and children as required by HUD.

Table 12. Age Table for Sheltered Population

Subpopulation	Number	Percent
Under Age 18	268	22.3
Age 18–24	70	5.9
Age 25–34	177	14.8
Age 35–44	219	18.3
Age 45–54	184	15.3
Age 55–64	147	12.2
Age 65+	135	11.2
Total:	1,200	100

The following table provides a breakdown by gender of the sheltered population of 1,182 adults and children as required by HUD.

Chronically Homeless Families (total persons)	7	0.6
Chronically Homeless Individuals	233	19.4
Chronically Homeless Veteran Individuals	6	0.5
Youth Under Age 18-Households w/only children	7	0.6

*890 households consists of 1,200 adults and children.

KEY FINDINGS

1. The number of adults and children counted as homeless increased by 1% when the 2024 Point-In-Time homeless count of 4,255 is compared to the 2023 Point-In-Time homeless count of 4,195
2. The number of adults and children counted as unsheltered increased by 2.6% when the 2024 unsheltered count of 3,055 is compared to the 2023 unsheltered count of 2,976.
3. The number of adults and children counted as sheltered decreased by 1.6% when the 2024 sheltered count of 1,200 is compared to the 2023 sheltered count of 1,219.
4. Approximately three-fourths (75.5%) or 3,200 of the 4,237 homeless adults and children were counted within seven cities that include Barstow, Colton, Fontana, Ontario, Redlands, San Bernardino, and Victorville.
 - a. These seven cities accounted for 2,187 or nearly three-fourths (71.6%) of the total unsheltered population of 3,055 and 1,013 or 85.7% of the 1,182 persons counted in shelters and transitional housing.
5. More than one-third (35.9%) of unsheltered adults and children counted as homeless became homeless for the first time during the 12 months prior to the homeless count.
6. Nearly one-third (29.6%) of unsheltered adults stated “City of San Bernardino” when asked in what city did you first become homeless.
7. More than half (55.6%) of unsheltered adults were chronically homeless, which is defined by HUD as being homeless for one year or more and having a disabling condition such as mental illness, chronic health condition, and a physical disability.
8. Nearly one-fourth (21.4%) of unsheltered adults answered “yes” when asked if they had been incarcerated during the past 12 months.
9. Two-thirds (66%) of unsheltered adults answered “no income” when asked to state their monthly income.
10. More than three-fourths (81%) of unsheltered adults answered either “no income” (66%) or “less than \$500” (15%) when asked to state their monthly income.

ACKNOWLEDGEMENTS

The San Bernardino County Homeless Partnership wishes to thank all the individuals and organizations that contributed to the preparation, implementation, and success of the 2024 Point-In-Time Count and Subpopulation Survey. Obtaining this data is essential to developing data-driven solutions for preventing and ending local homelessness. Such an endeavor would not be possible without the collaboration and efforts of volunteers, community groups, faith- and community-based organizations, county departments, city representatives and staff, homeless service providers, law enforcement, and elected officials. Your hard work, time, and dedication to ending homelessness are greatly appreciated.

Special Thanks to the following Individuals, Agencies, and Organizations

- The 550 community volunteers from across San Bernardino County who canvassed areas identified as “green count zones” the morning of January 25th to complete the 2024 Point-In-Time Count and Subpopulation Survey.
- The following agencies and community organizations that contributed staff time, support, resources, and office space for planning, training, and development activities to help make the 2024 Point-In-Time Count and Subpopulation Survey a success:

APPENDIX B

Unsheltered Count Survey

1. Where did you sleep last night?
 - If in a vehicle, what type of vehicle?
 - How many persons, including yourself, slept overnight in the same vehicle?
2. What is the first initial of your first name?
3. What is the first initial of your last name?
4. What is your gender?
5. How old are you?
6. What is your race/ethnicity?
7. In what state were you born?
 - If the person was born outside of the United States, select “Outside of the U.S.” and note what country.
8. In what city/community did you first become homeless?

Note: Questions 10 and 11 were asked to help determine if the person was chronically homeless according to HUD’s definition.

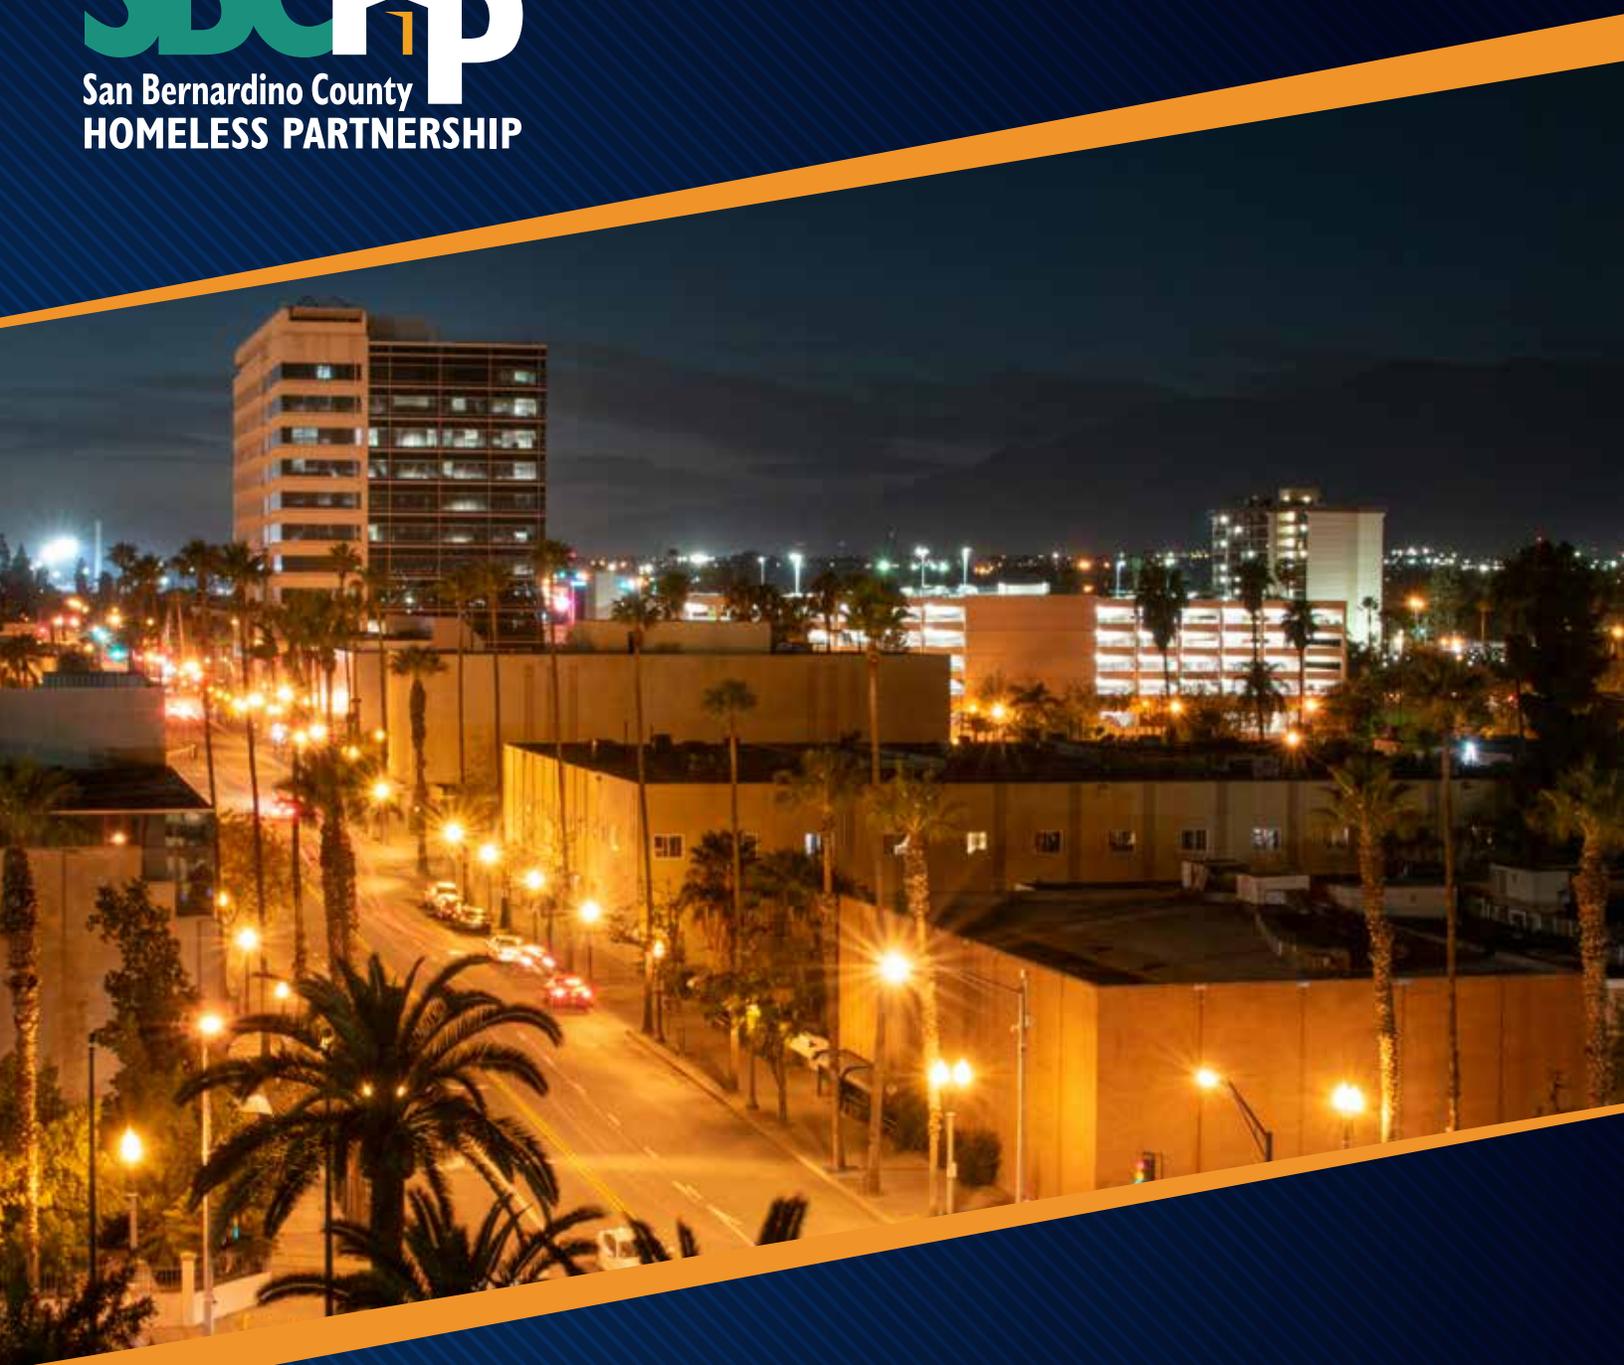

9. Did you become homeless for the first time during the past 12 months?
10. Have you been living in a shelter and/or on the streets, in abandoned buildings, or in a vehicle for the past year or more?
11. Have you been living in a shelter and/or on the streets, in abandoned buildings, or in a vehicle at least four (4) separate times during the last three (3) years, including now?
12. Have you served in the United States Armed Forces?

- If no, were you ever called into active duty as a member of the National Guard or as a Reservist?
13. Do you have any of the following disabilities or disorders that make it difficult for you or seriously limit your ability to live independently?
 - Long-lasting physical disability;
 - Long-lasting developmental disability;
 - Serious mental illness or emotional impairment; or
 - Substance use disorder.
 14. Have you been diagnosed with AIDS or tested positive for HIV?
 15. Has a doctor or other medical professional ever told you that you have a chronic health condition that is life-threatening, such as heart, lung, liver, kidney or cancerous disease?
 16. Are you currently experiencing homelessness because you are fleeing domestic violence, dating violence, sexual assault, or stalking?
 17. Have you been incarcerated during the last 12 months?
 - Were you released on parole or probation?
 18. How much is your monthly income?
 - No income;
 - \$1 to \$250;
 - \$251 to \$500;
 - \$501 to \$1,000; or
 - More than \$1,000.
 19. Have you ever been in foster care?
 20. Do you have any children living with you?
 - How many are under age 18?
 - What is the child’s gender?
 - Is the child Hispanic, Latino, or Latina?
 - What is the child’s race?
 - What is the child’s age?
 - Is the child enrolled in school?

21. Do you have a spouse or partner who is also homeless and living with you?

- If yes, administer the survey to spouse or partner.

22. Would you like to provide a phone number so a team member can contact and locate you to provide assistance and services for your need(s)?
